dentists, nurses, other health professionals, and non-medical support volunteers to care for people who otherwise would never receive professional medical care. We operate under the “Mother Teresa principle,” focusing on the poorest of the poor, who live in conditions that are difficult for most Americans to imagine. The Humanitarian Efforts Committee of the American Academy of Otolaryngology—Head and Neck Surgery Foundation (AAO-HNSF) provides a clearinghouse for Academy members and their staff to join in overseas medical missions in Latin America and the Caribbean, in Africa, Asia, and the Pacific.

Committee members encourage others by sharing their experiences in the monthly *Bulletin* and at meetings. We introduce members to outreach opportunities through the website pages, including a discussion board where they can post calls for volunteers and supplies, offer donated equipment, textbooks, and journals and seek help for clinical cases.
