

STACEY ISHMAN, MD, MPH

**CANDIDATE FOR
NOMINATING COMMITTEE
(ACADEMIC)**

What do you see as the priorities of the Nominating Committee in selecting the future leaders of our Academy?

I believe we must select physician volunteers who have a commitment to service, an understanding of the issues affecting medicine and the integrity and passion to carry out this important work. Our academy is blessed with a multitude of talented and collaborative members and it is the job of the Nominating Committee to select the best of this gifted group. I feel that an ideal candidate should have the vision to continue our Academy's national leadership on quality and patient outcome efforts while remaining aware of the diverse perspectives that are necessary to represent our broad constituency.

My experiences in the Academy have helped me to understand effective leadership qualities. I have been highly involved in the Board of Governors and currently serve on the Executive Committee as the Member-at-Large. I have been a member of multiple Academy committees as well as the Advisory Council for Quality and the Guidelines Development Taskforce. I have also served locally as the President of the Maryland Otolaryngology Society and Surgical Director of a multidisciplinary Upper Airway Center at Cincinnati Children's Hospital. I would appreciate the opportunity to use this knowledge and serve my fellow otolaryngologists as a member of the Nominating Committee.

Name Stacey Ishman, MD, MPH

I have been fortunate to serve the Academy in many ways and continue to admire the breadth and depth of support and services that they offer. As a committee member of the Sleep Disorders, Pediatric Otolaryngology and Evidence Based Medicine and Outcomes committees I have been able to provide and review socioeconomic, safety and educational content and participate in multiple mini-seminars at the annual meeting. I have also enjoyed the opportunity to create specific educational content through the Pediatric Otolaryngology Education and Education Steering committees where I have focused my efforts on educational modules for the Patient of the Month Program, revision of the Maintenance Manual for Lifelong Learning and creation of a national medical student curriculum.

I have also enjoyed the advantages of our strong research focus and am a recipient of a CORE grant having received a Triological Career Development Award. I have also been fortunate to serve on the other side of the fence as a CORE grant reviewer in 2013 and look forward to participating again in 2014. I also represent the BOG as the representative to the Advisory Council on Quality and Guideline Development Task Force. Additionally, I have had the opportunity to present my research at the annual meeting and through a number of mini-seminars. These experiences have heightened my appreciation for the myriad of educational opportunities both through our on-line and in-person offerings at home and at the meeting.

I've also worked closely with the Government Affairs Staff of the Academy and attended our legislative advocacy day for the last 9 years. I see the hard work that goes into vigilantly monitoring and commenting on legislation, both at the state and national level. I have also assisted with policy statement development, previously served as the Vice-Chair of the Board of Governors (BOG) Legislative Representatives committee and currently serve as the BOG Member-at-large. In addition, as a previous President and board member of the Maryland Society of Otolaryngology, I have seen the importance of our Academies support at the local level as we protect our patients and colleagues with their counsel and expertise.

I just recently left Johns Hopkins after 8 years where I held joint appointments as an Associate Professor in the Divisions of Otolaryngology-Head and Neck Surgery, Pediatrics (Pulmonary), Anesthesia & Internal Medicine (Pulmonary). My new position in the Divisions of Otolaryngology & Pulmonary Medicine at the Cincinnati Children's Hospital Medical Center is as Surgical Director of the Upper Airway Clinic. I specialize in Sleep Medicine for children and adults and Pediatric Otolaryngology and as such will be working in both the VA system and at the Children's Hospital. I hold a Doctor of Medicine from Rush Medical College in Chicago, Illinois and earned a B.A. in Political Science and a B.S. in Biology from the Pennsylvania State University in State College, PA. I completed a General Surgery internship and Otolaryngology residency at the Medical College of Wisconsin in 2005 and a fellowship in Pediatric Otolaryngology at Johns Hopkins. I underwent additional training in Sleep Medicine and am board certified in Otolaryngology and Sleep Medicine.

I would be honored to serve the Academy and its members if chosen to do so.

CURRICULUM VITAE

Date **120812**

Name **Stacey L. Ishman, MD, MPH**

Current Employment Cincinnati Children's Hospital Medical Center

Place of Birth Long Branch, NJ

Education:	<u>Dates</u>	<u>Degree</u>	<u>Graduation</u>
1987-1992	B.S., The Pennsylvania State University, State College, PA,	Biology/Vertebrate Physiology	
1987-1992	B.A., The Pennsylvania State University, State College, PA,	Political Science	
1996-2000	M.D., Rush Medical College, Chicago, IL,	Medicine	
2006-2010	M.P.H., Johns Hopkins Bloomberg School of Public Health, Baltimore, MD,	Epidemiology	

Residency and Fellowship

2001 Internship, General Surgery, Medical College of Wisconsin, Milwaukee, WI
 2005 Residency, Otolaryngology, Medical College of Wisconsin, Milwaukee, WI
 2006 Fellowship, Pediatric Otolaryngology, Johns Hopkins School of Medicine, Baltimore, MD
 2007 Advanced Training – Sleep Medicine, Johns Hopkins School of Medicine, Baltimore, MD

Specialty Adult & Pediatric Sleep Medicine & Pediatric Otolaryngology

Licensure and Certification

Licensure	Number	Issue Date	Expiration
Maryland	D0062506	12/10/04	9/30/14
Wisconsin	40716-020	1/7/03	10/31/15
