Reg-ent℠

CURRENT FEATURES
- - - - FUTURE FEATURES

Reg-ent is an otolaryngology-specific clinical data registry that will become the foundation for quality reporting, measures development, quality improvement, clinical and product research, and support for maintenance of certification and licensure.
With Reg-ent, AAO-HNSF is investing in our members' future, a future that will be increasingly focused on quality of care and patient outcomes.

HARNESS THE POWER OF DATA

Reg-ent℠

ENT CLINICAL DATA REGISTRY

Through Reg-ent you will be able to report all required MIPS categories including Quality Measures, Advancing Care Information Measures, and Improvement Activities. Sign up by July 15, 2017 to partner with Reg-ent for MIPS reporting. The sooner you sign up, the more time you will have to review your performance data, integrate your EHR system, and make adjustments as needed to maximize your participation.

Sign Up by July 15, 2017!
