INTRODUCING

Multichannel ENT learning resources for all specialty areas—when, where, and how you want them.

www.entnet.org/FLEX

For questions, please email us at flex@entnet.org
The AAO-HNSF’s new flagship education product, FLEX—Focused Lifelong Education XPERIENCE, will provide the knowledge, education, clinical tools, and professional support to help you meet the challenges of your otolaryngology practice and build mastery throughout your career. This new curriculum will especially benefit residents in their training.

Spanning across all eight specialty areas throughout the year, each topic will be presented in a variety of creative and contemporary learning modalities.

Built on a fundamental learning philosophy that the needs and preferences for otolaryngology education will continue to evolve over time—the tools provided in the FLEX subscription will remain timely and relevant for all learners.

The FLEX annual subscription package includes the opportunity to earn up to 100+ CME/MOC credits AND access to the Member+ catalog with 200+ additional CME activities.

Registration opens Summer 2020!

**ANNUAL SUBSCRIPTION FEE**
