

CLINICAL PRACTICE GUIDELINES

PATIENT INFORMATION

FREQUENTLY ASKED QUESTIONS (FAQs) ABOUT OPIOIDS

WHEN SHOULD I BEGIN TAKING MY OPIOID PAIN MEDICATION?	<p>Pain medication should be taken for severe pain as needed, but only if pain is not controlled with nonopioid medication (painkillers such as acetaminophen or ibuprofen).</p> <p>If you need opioids for severe pain, take them as prescribed on the medication's bottle.</p>
HOW MANY SHOULD I TAKE AT ANY GIVEN TIME?	<p>To figure out how many pills you should take, read the instructions on the medication's bottle or the instructions given to you by your health care provider.</p>
CAN I TAKE TYLENOL, ASPIRIN, OR ADVIL INSTEAD OF THIS MEDICATION OR WITH THIS MEDICATION?	<p>Probably yes, but you should check with your health care provider.</p> <p>Some prescribed pain medications combine acetaminophen with opioids. Taking additional acetaminophen with the prescribed combination pain medication could be unsafe.</p>
DO I NEED TO FINISH THE ENTIRE BOTTLE OF PILLS?	<p>No, pain medication should be taken when needed and pain medication must be stopped when pain is controlled.</p> <p>If your severe pain is under control, there is no need to finish the bottle.</p>
WHAT SHOULD I DO WITH THE PILLS THAT ARE LEFTOVER?	<p>Leftover pills should not be left in your home where someone else can take them.</p> <p>There are facilities that will take these leftover medications. Check with your health care provider.</p>
CAN I GIVE THESE PAIN MEDICATIONS TO FAMILY MEMBERS?	<p>No, medications should never be shared with a family member or anyone else.</p> <p>If you have any pills leftover, check with your health care provider or take them to a facility that will get rid of them safely.</p>
