1 OVERVIEW

Allscripts has opened proprietary Intelligent APIs named Unity for secure health care data exchange. Unity API provides secure read-write access to data in Allscripts ambulatory, acute, and practice management solutions that are cloud-hosted. FIGmd has been working with Allscripts to establish an API integration that will allow providers to participate in FIGmd supported programs.

API salient features

- Simplify implementation without sacrificing information integrity.
- It leverages existing logical and theoretical models to provide a consistent, easy to implement, and rigorous mechanism for exchanging data between healthcare applications.
- Designed with web-friendly RESTful architecture and open internet standards.
- Evolved from the need to share health information securely across the web to multiple open systems.
- Provides an alternative to document-centric approaches by directly exposing data elements as services.

3 PRICING STRUCTURE

(For Cloud-hosted Allscripts Professional (PRO), TouchWorks, and PM)

The following pricing structure that has been provided by Allscripts is per practice (client) per year. Each product has a separate pricing structure. Please note that all pricing decisions have been made by Allscripts and FIGmd has not been involved in it. If you have any questions regarding pricing, please contact allscriptsdeveloperprogram@allscripts.com

Please note that all the data required for FIGmd services may not be available in the EHR and hence PM may need to be accessed as well. In such cases, pricing per year will include the cost for the EHR API setup and the PM API setup.

The current pricing is based on the API calls that need to be accessed for FIGmd services. As programs evolve, this list may need to change and the pricing may change accordingly.

3.1 Allscripts Professional (PRO)

Call	Tier	Price
GetUserAuthentication	0	\$0.00
GetChangedPatients	3	\$150.00
GetCCDA	0	\$0.00

Total		\$2,200

Example:

1. If a practice only needs a Allscripts Professional (PRO) Integration then the annual cost for the integration will be \$550 per practice.

2. If a practice needs a Allscripts Professional (PRO) + Allscripts PM integration then the annual cost for the integration will be $\$550 + \$700 = \$1,250$ per practice.

4 SIGN UP PROCESS

1. Fill out the FIGmd Allscripts Client Activation Request form (Appendix A) and return it to allscripts@figmd.com with your FIGmd representative in cc.
2. FIGmd will submit the Client Activation Request to Allscripts (1-2 Business days). Per Allscripts the estimated activation turnaround time is:
 - a. Professional EHR Clients (1-3 Business days)
 - b. Practice Management Clients (1-3 Business days)
 - c. TouchWorks EHR Clients (3-5 Business days)
3. Allscripts will send the Client an email to confirm interest in participation. Once the Client confirms the email from Allscripts, FIGmd can move forward with accessing the API's.

5 FAQs

5.1 General

Q1. What if I don't want to pay the fees? Is there another way to send data?

A1: Cloud hosted sites will need to use the API setup in order to send data to their program of choice.

Q2. Is all the required data available via the API?

A2: Most of the required section data are available through the APIs, except for OfficeVisitNotes and e-signature. FIGmd team is working with Allscripts developers to find appropriate API for OfficeVisitNotes, if any.

Q3. Are all the listed API calls required for my data to be sent?

A3: Yes, all of the APIs listed under the specific Allscripts product are required. Clients cannot pick and choose the APIs to use from the list. This list is only a small subset of the APIs offered by Allscripts and may change as the data needs change.

Q4. Are there specific versions supported?

A4. Unity APIs are independent of the product version. Unity has its own Born on Date (version) that can be updated during the activation to support any activation.

Q5. If there are any changes or upgrades planned do I need to inform FIGmd?

A5. Yes, the Client is responsible for notifying FIGmd if there are any changes/upgrades planned to the system. Examples include (not a complete list): Client ID changes, Unity URL changes, Unity key changes.

Q6. Where can I find my Site (Client) ID?

A6. For Touchworks and PM Clients, please contact your Allscripts sales representative in order to get the Client ID. For Professional please Go to Clinical Module → Actions → Menu → About → License Info tab → Site ID.

Q7. Which Allscripts products is FIGmd certified for?

A7. Allscripts Professional (PRO), Allscripts Touchworks and Allscripts PM.

5.2 Billing

Q1. How frequently will I billed for this?

A1. Invoicing will be done on an annual basis per calendar year once the certification request has been submitted to and approved by Allscripts.

Q2. Who will be invoicing me for these fees?

A2. FIGmd will be sending the invoice. Once FIGmd receives the payment, those fees will be remitted to Allscripts.

Q3. Which company has determined the pricing structure for these API calls?

A3. The pricing structure for the API calls has been determined by Allscripts.

Q4. Does FIGmd retain any of the costs that are associated with the API calls?

A4. No, FIGmd does not retain any of the costs associated with the API calls. Once the fees are collected by FIGmd, those fees will be sent to Allscripts.

Q5. Are my fees refundable?

A5. Any refunds will be reviewed by Allscripts on a case by case basis.

Q6. Are these fees per provider or per practice (client)?

A6. These fees are per practice (client) and not on a per provider basis.

6 UNITY ACTIVATION AND INSTALLATION (IF REQUIRED)

Unity Install or Update (If Required) - For Hosted Clients, the ADP Activations team will complete the installation or update Unity to the required version.
