WHY ENGAGE WITH AAO-HNS/F?

The American Academy of Otolaryngology-Head and Neck Surgery Foundation is the flagship organization in the specialty for educational content and thought leadership.

Clinicians and administrators trust us to move the practice forward, advocate on their behalf, and continue to lead them toward improved patient outcomes. Our corporate partners are an integral part of this process. The closer we work together, the better you will be able to produce improved products and fill needed gaps in patient care and outcomes.

The AAO-HNSF Annual Meeting & OTO Experience is the largest and most well-respected international meeting in the field of otolaryngology. With well over 5,000 surgeons, physicians, and other medical professionals in attendance, you will have access to the industry's top decision makers. No other event offers this level of exposure and access.

We have a wide variety of engagement options that will enable you to tell your story directly to your customers. Perhaps you'd like to showcase your thought leadership through our Product Theater or Hands-On Demonstration Lab. You could also message decision makers through our attendee experience options such as the Opening Ceremony or President's Reception. Don't forget - we have great branding options through attendee registration bags, hotel keycards, and much more.

While the Annual Meeting represents the best opportunity to engage decision makers in otolaryngology directly, we also have other opportunities throughout the year for more consistent messaging. Advertise in our the *Bulletin*, AAO-HNS' official magazine, and reach our approximately 12,000 members plus their staff. Become a Corporate Champion and access exclusive benefits such as priority access to the Reg-ent™ Clinical Registry and research evaluation/study design assistance.

There are many options to fit your goals and budget. **Remember, all opportunities are on a first come, first served basis.** If you'd like to pursue an opportunity that is not listed or perhaps you have a different take on one that is listed - let us know! We are excited to work with you to craft the best value possible.
