

## **Ways to Donate**

### **AmeriCares**

<https://medicaloutreach.americares.org/>

AmeriCares supports U.S. medical teams for international humanitarian work with free medications and medical supplies in addition to educational and training resources. They also have company partners from which they can request products that may not be in their inventory.

### **Brother's Brother Foundation**

<https://www.brothersbrother.org/>

Brother's Brother Foundation is a gift-in-kind charity which accomplishes its mission by accepting and then redirecting donations of goods and services to areas in need. Groups and corporations donate their surplus items to BBF which are then redirected to the needs of medical missions.

### **Heart to Heart International**

<https://www.hearttoheart.org/our-work/product-distribution>

Among many of Heart to Heart International's initiatives, the group provides medicine and equipment to clinics in the US and to international medical mission teams.

### **MedShare**

<https://www.medshare.org/>

MedShare collects surplus medical supplies and used equipment from U. S. hospitals and manufacturers. These supplies are then made available to medical mission teams overseas or are shipped to hospitals in developing nations.

### **MedWish**

<https://www.medwish.org/>

MedWish provides repurposed medical supplies to recognized nonprofit organizations for international relief in developing countries.

### **Project C.U.R.E.**

<https://www.projectcure.org/procure>

Collects and delivers supplies, prescriptions and equipment to severely resource-limited communities to save lives, make diagnosis and treatment possible

### **Scanlan International**

<http://www.scanlaninternational.com/>

Based in St. Paul, Scanlan International is a manufacturer of surgical instrumentation. Through Scanlan Life Programs, it donates supplies to support surgical teams undertaking humanitarian missions around the world.

### **World Medical Relief**

<https://www.worldmedicalrelief.org/>

World Medical Relief collects and distributes recycled medical/dental equipment, supplies, and medicines to groups undertaking medical missions.
