

International Observership Directory

Below is a listing of some U.S. otolaryngology organizations or departments that have offered international observerships in previous years. International Observerships allow eligible international physicians the ability to shadow U.S. physicians and learn more about the specialty of their choice. Please note each institution has different eligibility requirements. For further information regarding individual international observerships, please contact each institution directly according to their below information.

If you have any questions about the directory or would like your U.S. otolaryngology institution to be added to our list, please contact international@entnet.org
